

Red Autumnal Viburnum

A single autumnal stem from the popular Recipe Collection.

Chosen for its realism

Handcrafted

from our popular 'Recipe Collection'

Code: 19624

Dimensions: 18L x 27W x 63H

Description

From the sought-after Recipe Collection comes a meticulously detailed autumnal stem that brings the rich warmth of fall into any floral arrangement. The deep crimson berries cluster densely along the natural-looking branches, creating an authentic seasonal display that captures attention in both retail and commercial settings. This artificial viburnum stem pairs wonderfully with our Burgundy Peony Rose for depth, White Gypsophila Spray for textural contrast, and Lambs Ear Spray for a silvery accent. For a complete autumn arrangement, consider adding the Viburnum Berry, Green Peony, and Blue Thistle stems. The long-lasting quality and realistic appearance make it an essential choice for florists and decorators seeking to create enduring seasonal displays. Trade customers will appreciate the consistently high demand for this stem throughout the autumn and winter seasons, as it forms the foundation of countless arrangements and wreaths. The carefully considered color palette works harmoniously with both traditional and contemporary design schemes, while its sturdy construction ensures it maintains its shape and appearance during transportation and display.
