Double-layered design maximises light play

Weather-resistant materials ensure lasting quality

LED-compatible for safe indoor use

Code: 24076

Dimensions: 8L x 20W x 29H

Description

This enchanting glass candle display celebrates rustic winter aesthetics through thoughtfully sculpted dual tree silhouettes mounted on a stable stand. The intricate detailing of bare branches creates mesmerising shadow patterns when illuminated by LED candles, generating an atmospheric glow that captures the serene beauty of a winter forest. The metallic framework exhibits remarkable attention to detail in its branch architecture, while the glass housing provides both protection and enhancement of the lighting effects. This decorative piece serves as an ideal centrepiece for seasonal displays, perfectly complementing other winter-themed accessories such as pinecone garlands, metallic ornamental spheres, and crystal snowflake hanging decorations. The neutral colour palette ensures seamless integration with existing décor schemes, while the substantial size makes it an impactful addition to window displays, mantelpieces, or retail merchandise arrangements. For maximum visual impact, consider pairing with metallic tea light holders, frosted glass vases, or wire-work lanterns in corresponding finishes. The quality construction and careful consideration of proportions demonstrate superior craftsmanship, making this an excellent investment piece for retailers seeking distinctive seasonal merchandise that resonates with customers looking for enduring winter décor.

Specification
