Detailed surface pattern creates visual dimension

Multi-scheme adaptability

Commercial display flexibility

Code: 23927

Dimensions: 16L x 16W x 14H

Description

Unmatched artistry meets practical design in these sculptural plant pots, part of the distinguished Sabbia Collection. The artichoke-inspired texture creates an intricate play of light and shadow across the surface, delivering depth and visual interest to any retail display. The neutral palette ensures universal appeal while maintaining design authenticity that speaks to discerning customers seeking statement pieces. Each vessel demonstrates superior craftsmanship through its precise detailing and balanced proportions, making it an investment piece for design-conscious clientele. The collection's aesthetic versatility allows it to harmonise with both minimalist and maximalist interior schemes, appealing to diverse customer bases. For a coordinated display strategy, pair these distinctive containers with the Ordo Lyme White planters for a modern monochromatic statement, or complement with the Siena Brown rimmed plant pot for an organic, earthy aesthetic. The innovative design works particularly well with the practical functionality of the Light Green Ceramic Flower Frog, offering retailers multiple merchandising opportunities. This range represents the perfect balance between artistic merit and commercial viability, promising strong returns through its broad market appeal and design longevity.
