

Sabbia Collection Medium Hollow Vase

Modern sculpture meets functional design in this statement hollow vase. Fluid curves create dramatic shadows and spatial intrigue. Perfect for minimalist or lavish an

Shadow-casting contours deliver dramatic room presence

Pairs seamlessly with stone and ceramic collections Multi-functional as art piece or botanical vessel

Dimensions: 7L x 16W x 33H

Description

Within the Sabbia Collection lies a sculptural wonder that marries minimalist aesthetics with organic forms. This hollow vase presents an artistic interplay of negative space and fluid curves, creating an architectural statement piece that demands attention in any setting. The vessel's graceful silhouette appears to float, delying conventional design expectations while maintaining practical functionality. Its neutral peatite ensures seamless integration diverse interior schemes, from modern metropolitan spaces to relaxed coastal environments. For maximum visual impact, pair this distinctive piece with the complementary Tiber Stone Ceramic Vase or the coordinating Sabbia Squat Seed Fod Vase from the same collection. The arrangement possibilities are endess - considerating with the Monte Medium Bell vase or the Amalfi Grey Hydria Pot to create a compelling tabletop installation that showcases varying heights and forms. Each curve and contour has been considered to cast entrancing shadows throughout the day, making this piece as much an artistic installation as it is a functional vessel; a functional vessel; a functional vessel; a functional vessel; and such cash control in the same collection of the minimalist single-stem arrangements and more abundant botanical displays, offering retailers multiple styling possibilities for their customers.
