Dual vessel design for symmetrical displays

Metallic finish reflects ambient light

Raised stand for multi-level merchandising

Code: 21585

Dimensions: 28L x 28W x 76H

Description

An alluring pair of silver planters mounted on a statuesque stand offers a perfect fusion of modern design and practical display space. The metallic finish catches and reflects light throughout the space, while the thoughtfully proportioned stand provides an architectural element that draws the eye upward. These vessels create an ideal showcase for artificial botanicals, making them particularly appealing when styled with our Autumn Burgundy Hydrangea, Cream Pampas Grass, or Eucalyptus Spray collections. The structured geometry of the planters provides a stunning contrast when paired with organic forms, such as our Green Peony arrangements or the rustically inspired Garda Decorative Large Artichoke. For maximum visual impact, consider coupling with our Aged Stone Ceramic Vase or coordinating with the Silver Standing Stag Ornament to create a cohesive metallic theme throughout the space. The duo of planters allows for symmetrical styling opportunities, perfect for framing entryways or creating balanced focal points in commercial or residential settings. Retailers will appreciate the adaptable nature of this piece, as it coordinates seamlessly with both contemporary and traditional merchandise displays, making it a reliable seller across multiple design preferences and seasons.

Specification

Length:	28cm	Barcode:	5050140158586
