Description

From the distinguished Seville Collection comes a vessel that redefines interior décor with its Mediterranean-inspired silhouette and balanced proportions. This planter merges classical Greek Lebes form with contemporary design sensibilities, offering a perfect showcase for both artificial botanicals and modern retail displays. The vessel's graceful curves and proportions make it an ideal complement to the Alpine Vase and Lebes Squat Vase within the same collection, creating opportunities for cohesive visual merchandising. When styled with the Green Viburnum Spray or Light Blue Agapanthus, it produces stunning arrangements that appeal to design-conscious consumers. The planter's versatility extends to pairing possibilities with the collection's Indigo Planter and Grey Diamond Planter, enabling retailers to create compelling visual stories throughout their showrooms. For maximum impact, consider displaying alongside the Moroccan Style Lidded Display Jar to emphasize its exotic appeal, or pair with the Pastel Pink Tea Rose and White Spring Mock Orange Flower for a softer, romantic presentation that will attract customers seeking ready-made design solutions. The neutral finish ensures seamless integration with existing inventory while maintaining its distinctive character, making it a reliable seller across diverse retail environments.
