

Siena Brown Diameter Rimmed Plant Pot

Refined brown rim adds Mediterranean character. Perfect for real or artificial arrangements. Creates stunning displays with Siena collection pieces.

- Deep brown finish adds visual weight
- Water-safe with florist wrap
- Pairs with Amalfi Grey series

Code: 23302
Dimensions: 28L x 28W x 20H

Description

This distinctive rimmed plant pot showcases a rich brown finish that channels Mediterranean warmth and rustic appeal. The carefully balanced proportions and substantial rim detail create a visual anchor for any botanical display, whether artificial or real flowers. Part of the celebrated Siena collection, this vessel demonstrates thoughtful craftsmanship through its clean lines and structured form. The pot's versatility shines when paired with complementary pieces from the collection, such as the Siena Brown Water Pot and Siena Brown Jug, creating a cohesive display that speaks to modern design sensibilities. For those seeking to create layered arrangements, the pot harmonizes beautifully with the Amalfi Grey series accessories, offering opportunities for tonal contrast. The vessel's considered design allows for both statement-making solo presentations and integrated groupings. Water-safe when used with appropriate florist wrap, this pot adapts to various display needs while maintaining its refined aesthetic. The brown finish provides a grounding element that complements both vibrant florals and subdued greenery, making it an essential addition to any well-curated home décor collection. Consider pairing with the Matt White Ceramic Column Candle Holder or Garda Grey Glazed Tiber Vase for a balanced, multi-textural display that will appeal to design-conscious customers.
