

Siena Brown Lattice Lantern

Brown lattice lantern creates enchanting light patterns. Precise geometric design adds modern appeal. Perfect match with Siena collection and botanical accents.

- Dimensional diamond pattern enhances light display
- Multi-seasonal brown finish
- Pairs with both modern and classic decor

Code: 23628

Dimensions: 15L x 15W x 15H

Description

Cast in rich brown tones, this lattice lantern melds modern geometry with rustic charm. The intricate diamond pattern creates mesmerizing light patterns when illuminated, making it an ideal centerpiece for ambient lighting. The metal framework exhibits meticulous attention to detail, with clean lines and precise angles that catch and reflect light in compelling ways. This piece coordinates flawlessly with the matching Siena Brown collection, including the Hurricane Lantern and Amphora Pot for a cohesive display. For a naturally-inspired arrangement, pair with Variegated Eucalyptus stems or the Large Cineraria Eucalyptus Spray to soften the geometric design. The interplay between the structured lantern and organic botanical elements produces an engaging visual contrast. The deep brown finish ensures this piece maintains its appeal across seasons and design schemes. Retailers will appreciate its ability to coordinate with multiple decorative styles, from traditional to contemporary, making it a reliable stock item that appeals to diverse customer preferences.
