

Single Snow Pine Spray

Create magical winter scenes with snow-dusted pine sprays. Perfect for wreaths, mantels, and table arrangements. Pairs beautifully with berries and sparkle accessories.

- Chosen for its realism
- Handcrafted
- Perfect for the festive season

Code: 21151
Dimensions: 23L x 23W x 39H

Description

Meticulously designed to capture the essence of winter wonder, this snow pine spray offers an unmatched level of authenticity that will enchant your customers throughout the festive season. Each needle is thoughtfully positioned to mimic the natural drape and movement of genuine pine branches, complete with a delicate dusting of snow that catches and reflects light beautifully. The spray's dimensional structure allows for effortless incorporation into various decorative arrangements - whether woven through mantelpiece displays, integrated into wreaths, or arranged as stunning tabletop focal points. For retailers seeking to provide comprehensive seasonal collections, this spray pairs magnificently with our Festive Snow Branch, Medium Festive Berry Pick, and Frosted Pine Stems with Pinecones. The combination of these pieces enables customers to build layered, professional-quality displays with minimal effort. The spray's neutral winter palette ensures seamless integration with both traditional and contemporary holiday décor schemes, while its careful construction guarantees season after season of reliable use. The realistic needle clusters and snow-tipped edges make it an essential component for retailers catering to discriminating customers who demand authentic-looking seasonal décor. When combined with our Antique White Wooden Sparkle Star and glass decorative trees from the Noel Collection, it creates merchandising opportunities that will drive multiple item purchases and increase average transaction value.
