- Pre-installed 200 LED system
- Snow-coated woodland finish

Code: 24128

Dimensions: 91L x 91W x 210H

Description

Transport your customers into a serene winter wonderland with this enchanting pre-lit artificial Christmas tree. The slim profile makes it perfect for spaces where floor area is at a premium, while maintaining the full visual impact of a traditional Christmas tree. Each branch is delicately dusted with a lifelike snow effect, creating a magical forest aesthetic that catches and reflects the warm glow of 200 integrated LED lights. The woodland-inspired design presents an organic, fresh-from-the-forest appearance, with carefully arranged branches that provide ample space for ornaments while maintaining their snow-covered charm. For retailers, this tree offers excellent opportunities for creative merchandising - pair it with frosted pinecone garlands, mercury glass baubles, and crystal-like icicle ornaments to create an ice palace theme. Silver and white decorative elements complement the snowy finish perfectly, while vintage-style glass ornaments in deep blues and silvers enhance the wintry atmosphere. Consider displaying alongside Arctic-themed tree skirts, white faux fur stockings, and silver-toned tree toppers to create compelling visual merchandising opportunities that will drive additional sales. The pre-installed lighting system eliminates the need for customers to purchase separate light sets, making this tree an appealing complete solution that retailers can confidently recommend.
