

Small Beige Cedar Tree With Star

Neutral beige cedar sculpture crowned with shining star. Perfect scale for creative displays. Pairs flawlessly with Nordic-inspired seasonal accessories.

- Adaptable neutral finish
- Star-topped focal point
- Multi-piece display potential

Code: 23137

Dimensions: 6L x 6W x 17H

Description

Infuse your winter décor with this enchanting cedar sculpture that marries rustic charm with contemporary design. The artfully crafted beige finish provides a refreshing alternative to traditional green holiday trees, making it a standout addition to any seasonal display. The graceful star crowning the top adds a touch of luminous wonder, while the thoughtfully scaled proportions make it perfect for tabletops, mantels, or retail shelving. This decorative piece works beautifully when grouped with complementary items from our White Wash Collection, particularly the wooden snowflake and reindeer decorations that share its understated Nordic sensibility. For added visual impact, consider pairing with our wicker bell decorations from The Noel Collection, creating layers of texture and interest. The neutral palette allows for seamless integration with existing holiday collections while offering a fresh perspective on seasonal décor. Those seeking to create an enchanted winter forest effect will appreciate combining this piece with our snowy pine and fir tree sculptures in varying heights, perfect for creating dimensional displays that customers will find irresistible.
