Contemporary on-trend shape

Matching alternate shape available

Green finish - the new neutral

Code: 22980

Dimensions: 13L x 13W x 43H

Description

Infuse your space with the calming essence of this distinctive sage-tinted glass vessel, featuring a harmonious fusion of modern design and artisanal charm. The bottle's graceful silhouette rises to meet a perfectly fitted stopper, while the smoky green finish casts enchanting shadows and reflections that dance across its surface. This statement piece works beautifully as a standalone accent or paired with its companion pieces, including the coordinating sage glass bottle in an alternate shape, creating an arresting display of varying heights. For maximum visual impact, consider matching with the Smoked Sage Glass Large Ellipse Vase, or layer with metallic accents like the Decorative Hanging Silver Mirror. The subtle green tonality makes it an ideal match for botanical elements - pair with the White Magnolia Stem for a serene arrangement that resonates with contemporary minimalism. This carefully considered design represents the latest direction in decorative accessories, as green emerges as the new neutral in interior styling. Trade customers will appreciate how this versatile piece appeals to design-conscious consumers seeking to incorporate gentle color and refined glasswork into their spaces.
