

Snowy Forest Fir Pre-Lit Led 300L Christmas Tree In Pot

Snow-dusted pre-lit fir creates instant winter magic. 300 LEDs provide warm, ambient glow. Sturdy pot ensures perfect display positioning.

- Pre-wired lights minimise setup time
- Self-supporting branches hold decorations firmly
- Weather-resistant artificial needles maintain appearance

Code: 24135
Dimensions: 83L x 83W x 90H

Description

Winter wonderland magic comes alive with this enchanting pre-lit forest fir, dusted with a delicate layer of snow that captures the serene beauty of a frost-laden December morning. The realistic branches, carefully arranged to mimic natural growth patterns, create abundant depth and dimension while holding ornaments securely. Each tier unfolds in a perfect conical shape, complemented by 300 warm LED lights that weave through the branches, creating a gentle, ambient glow that reflects brilliantly off the snow-tipped needles. The sturdy decorative pot provides both stability and style, making it an ideal choice for retail displays, shop windows, and high-traffic commercial spaces. For maximum visual impact, consider pairing with our collection of frosted pine cone garlands, mercury glass baubles in silver and ice blue tones, or our range of crystal-encrusted snowflake ornaments. The battery-operated LED star toppers from our Nordic Collection provide a perfect crowning touch, while our selection of faux fur tree skirts in arctic white or silver grey complete the wintry aesthetic. This artificial tree offers retailers a maintenance-free option that maintains its pristine appearance throughout the festive season, making it an excellent investment for businesses looking to create memorable holiday displays that will entice customers year after year.

Specification
