- Retro styling
- Handcrafted
- Beautifully made and incredibly stylish

Code: 19738
Dimensions: 11L x 80W x 80H

Description

Drawing inspiration from retro aesthetics, this stunning wall clock merges contemporary design with vintage charm through its mesmerizing contrast of brass numerals against a deep black face. The circular silhouette creates a powerful focal point that anchors any space while maintaining visual lightness through its thoughtful proportions. The meticulous attention to detail shines through in the refined brass finishing, which adds warmth and metallic lustre that catches and reflects light throughout the day. This statement piece works exceptionally well when paired with the Smoked Midnight Glass Candle Holder and Garda Grey Glazed Tall Juniper Vase for a cohesive arrangement that speaks to modern sensibilities while honoring classical elements. The chess piece collection in both grey and stone variations offers additional complementary accent pieces that echo the clock's balanced composition. For ambient lighting that enhances the clock's brass accents, consider the Ice Shadows Table Lamp with its navy blue shade or the Lattice Ceramic Table Lamp, both of which share the same dedication to refined materials and considered design.
