

Tall Black Wooden Window Mirror

The black window-style mirror doubles room depth while adding architectural interest. Pairs perfectly with stone vases and brass accents. A retail display essential that customers love.

- Multi-paned design mimics authentic window architecture
- Deep black finish suits varied decor styles
- Creates illusion of expanded space

Code: 22492

Dimensions: 4L x 70W x 180H

Description

Introducing an architectural marvel that brings the essence of classic window design into modern interiors. This black wooden window mirror creates a sense of expanded space while adding depth and character to any room. The carefully divided panes offer an authentic window appearance, while the deep black finish provides a contemporary edge that works beautifully in both traditional and modern settings. For a curated collection, pair this statement piece with the Aged Stone Ceramic Vase for textural contrast, or enhance the dramatic appeal with the Leptis Magna Table Lamp. The Garda White Decorative Acorn adds a touch of sculptural interest, while the Small Antique Brass Skeleton Clock complements the mirror's structural elements perfectly. This mirror serves as an ideal backdrop for retail displays and creates endless styling possibilities for your customers, making it a must-have inventory item that appeals to diverse design preferences.
