Architectural 103cm height for impact

Code: 23380

Dimensions: 11L x 11W x 103H

Description

Introducing a showstopping artificial orchid stem that brings the grace of exotic blooms into any interior space. This meticulously detailed white butterfly orchid captures the delicate essence of its natural counterpart, featuring pristine petals and lifelike textures that create an enduring display of botanical artistry. At an impressive height of 103cm, this stem creates a dramatic vertical accent that draws the eye upward and adds architectural interest to any arrangement. For an especially stunning display, we recommend pairing with our decorative hanging silver mirror to amplify the visual impact, or combining with the Black Wood Round Framed Mirror for a contemporary monochromatic statement. The addition of our Lush Pink Dahlia or Shabby Pink Hydrangeas stems introduces soft color contrasts while maintaining the refined aesthetic. This artificial orchid exemplifies superior craftsmanship and offers year-round beauty without maintenance, making it an essential addition to your product range.
