Code: 22209 Dimensions: 21L x 21W x 84H

Description

A botanical marvel in white, this delphinium stem offers urmatched authenticity with its delicately clustered florets arranged in a towering vertical display. Each petal exhibits intricate detailing and a carefully considered placement that mimics its living counterpart, creating an illusion of natural growth and movement. The pristine white coloring provides a refreshing accent suitable for modern and classical settings alike. This artificial stem proves essential for creating dramatic height in arrangements while maintaining a light, airy feet that doesn't overwhelm surrounding elements. For maximum visual improve, consider paring with white gyposphila sprays to create depth and texture at lower levels, while eucalyptus sprays add organic movement and a complementary silver-green tone. The white wild meadow rose offers a perfect middle-ground accent, while the blue histile provides striking contrast when used sparingly. Professions will appreciate the stem's ability to maintain its shape and appearance indefinitely, making it an excellent investment for seasonal displays and permanent installations. The consistent quality and realistic appearance ensure customer satisfaction and repeat business, while the versatile nature of the stem allows for countless creative applications in both commercial and residential settings.
