Create stunning garden-inspired displays with this lifelike pale pink foxglove. Multiple bell-shaped blooms cascade naturally down each stem. Perfect for mixed arrangements and seasonal showcases.

Authentic botanical details

Color-fast petals maintain vibrancy

Multi-level flower formation

Code: 23402

Dimensions: OL x OW x 55H

Description

Delicate pale pink blooms rise gracefully on this botanical wonder, perfectly replicating the enchanting foxglove found in English cottage gardens. Each stem showcases multiple bell-shaped flowers that cascade downward in a mesmerizing display, creating depth and movement within any floral arrangement. The subtle variations in pink hues and expertly detailed petals make this artificial stem indistinguishable from its living counterpart. For maximum visual impact, consider pairing with the complementary Mauve Foxglove and Purple Elatum Delphinium from our Natural Garden Collection. The addition of our Pink Ranunculus stems will add textural contrast, while the Purple Sweetpea introduces delightful movement and an ethereal quality to the arrangement. For those seeking to create a more dramatic display, incorporating our Lilac Wisteria or Shabby Pink Single Hydrangea will add varying heights and fullness to the composition. Each flower has been meticulously designed to maintain its shape and color, ensuring year-round beauty without maintenance. The realistic stem structure allows for easy arrangement and repositioning, making it an invaluable addition to any florist's inventory or retail display.

Specification

Length:	0cm	Barcode:	5050140340288
Height:	55cm	Colour:	Pink
