

The Serene Collection Two Drawer Console Table

A refined console table with two spacious drawers and balanced proportions. Pairs perfectly with ceramic lamps and textural wall art. Ideal showpiece for design-focused spaces.

- Dual storage drawers add functionality
- Clean-lined design suits varied decor styles
- High-grade materials ensure longevity

Code: 23896
Dimensions: 26L x 110W x 86H

Description

From the celebrated Serene Collection comes a meticulously detailed console table that marries function with artistry. This two-drawer piece showcases refined craftsmanship with its well-proportioned silhouette and considered design elements. The table's aesthetic quality makes it an essential addition to any curated retail collection, appealing to customers who value both style and practicality. For a cohesive interior scheme, this console table pairs exceptionally well with our collection of lighting options, including the distinctive Lattice Ceramic Table Lamp with its textural surface and complementary linen shade, or the sophisticated Grey Glass Table Lamp that echoes the table's refined presence. To complete the styling, consider adding the Fern Art or Bracken Art pieces, both featuring textured paper within beaded frames that harmonize with the table's proportions. The Grey Washed Photo Frame offers another complementary accent that reinforces the design's visual appeal. This console table represents an opportunity for retailers to offer their customers a centerpiece that will maintain its appeal across changing interior trends.
