Washed Wood Framed Beaded Mirror

Beaded detailing and washed wood finish unite in this square mirror for an airy, light-filled effect. Weather-worn texture adds character. Perfect above consoles or in groups.

- Beaded frame pattern creates visual depth
- Light-reflecting weathered finish
- Square format fits multiple layouts

Code: 23809

Dimensions: 3L x 76W x 76H

Description

A delicate fusion of rustic charm and refined detail defines this mirror's character, with its thoughtfully distressed washed wood frame creating an airy, light-filled ambiance in any space. The intricately woven beaded pattern encircling the frame adds depth and dimensional interest, while the weathered finish tells a story of enduring style that resonates with both traditional and modern sensibilities. The carefully balanced proportions make it an ideal focal point for entryways, living spaces, or retail displays, where it reflects light and enhances spatial perception. For retailers seeking to create cohesive merchandise displays, this mirror pairs exceptionally well with metallic wall sconces, woven wall baskets, and vintage-inspired ceramic vases. The neutral palette of the frame allows for seamless integration with both cool and warm-toned decorative elements, while the beaded detail opens possibilities for coordinating with textured throws, beaded chandeliers, and similarly detailed picture frames. The square format provides flexibility in positioning, whether centered above console tables or grouped with other decorative mirrors to create an eye-catching wall arrangement. This mirror represents an investment piece that promises strong consumer appeal across various demographic segments, from urban apartment dwellers to suburban homeowners seeking statement pieces with understated refinement.
