- Zero maintenance required
- Adaptable stem structure
- Maintains appearance indefinitely

Code: 22630
Dimensions: 25L x 25W x 77H

Description

Bring the enchanting beauty of climbing florals into your space with this meticulously detailed artificial clematis stem. Each pristine white blossom mirrors the authentic charm of garden-fresh flowers, making it impossible to distinguish from its living counterpart. The delicately arranged petals create an organic, flowing aesthetic that brings movement and grace to any arrangement. Perfect for professional florists and interior designers seeking to craft enduring botanical displays that require zero maintenance while delivering maximum visual impact. This artificial clematis pairs wonderfully with Gunnil Eucalyptus sprays and Seeded Eucalyptus for a modern, botanical look, while combining it with Wild Meadow Roses and Gardenias creates a romantic, cottage-garden aesthetic. The green foliage provides an ideal backdrop for the luminous white blooms, creating depth and dimension in arrangements. For a contemporary twist, consider pairing with architectural elements like Thistle Globe stems or Green Craspedia. The realistic stem structure allows for easy manipulation, enabling creative freedom in designing both compact and cascading arrangements that will maintain their fresh-picked appearance indefinitely.
