

White Spear Hydrangea

Our off-white hydrangea spear has the ability to tone in (thanks to its colour) at the same time as standing out (thanks to its unusual shape). An elegant addition for any space.

Description

This exceptional off-white spear hydrangea showcases a distinctive silhouette that manages to both blend seamlessly and create visual interest through its unique pointed form. A member of the prestigious Recipe Collection, this faux bloom merges contemporary design with traditional floral appeal. For maximum visual impact, pair with the Darcy Antique White Vase and complement with Seeded Eucalyptus Stems or the Variegated Eucalyptus Bouquet for a layered arrangement. The neutral palette works beautifully with seasonal additions like the Autumn Coffee Hydrangea or Burgundy Berried Eucalyptus, allowing for year-round merchandising flexibility.
