

White Spring Mock Orange Flower

This realistic mock orange spray offers unmatched detail and lasting beauty. Perfect for professional displays and arrangements. Essential addition to premium artificial botanical collections.

Chosen for its realism

Handcrafted

From the popular 'Recipe Collection'

Code: 19016

Dimensions: 25L x 13W x 92H

Description

From the celebrated Recipe Collection comes this meticulously detailed mock orange flower spray, radiating freshness and refinement in pristine white. Each delicate petal and leaf demonstrates exceptional attention to detail, creating a lifelike appearance that brings the essence of spring blooms to any display. Perfect for adding depth and visual interest to floral arrangements, this spray works beautifully when paired with our Seeded Eucalyptus Stem for a textural contrast, or the White Gypsophila Spray for an airy, romantic feel. For a more dramatic arrangement, consider combining with the Burgundy Berried Eucalyptus to create stunning color variations. The spray's realistic qualities make it an ideal choice for year-round displays in hospitality venues, retail spaces, and interior design projects where lasting beauty is essential. Trade customers will appreciate the durability and minimal maintenance requirements, making it a reliable stock item with consistent appeal to end consumers looking for high-quality permanent botanicals.
